2:00 p.m. – 15 min break

4:30 p.m. – Session ends

Session Information

This session is designed for both individuals new to their role in ICD-10 coding and those who have some experience but need to further their ICD-10 coding knowledge.

In this 2-day workshop, attendees will:

- Review ICD-10-CM basics including navigating ICD-10 coding books.
- Review ICD-10 coding guidelines.
- Review using documentation to support ICD-10 coding.
- Review of selection of principal/primary diagnosis
- Examine PDPM specifics including clinical categories, SLP and NTA comorbidities and mapping.
- Discuss how to apply coding guidelines to long-term care specific coding scenarios to select appropriate diagnoses.

Speaker Information

Chris Gieger, MA, RHIA, CCS, CRC AHIMA Approved ICD-10-CM/PCS Trainer

Chris has worked at large and mid-sized health care facilities in many roles where she gained a thorough understanding of health information management. Her coding career includes working in hospitals as both an employee and a consultant. Her work with Skilled Nursing Facilities includes medical record compliance reviews and ICD-10 coding support, audits, and education. She helped author education programs for ICD-10 coding in preparation for PDPM and has served as an instructor for ICD-10 education.
